

### WHAT DO YOU GET FOR THE PRICE?:

Prices listed are for rough lumber, sold random width, and random length. The lumber is manufactured to produce the best possible appearance while conserving the maximum usable product of the log. For orders requiring specific widths, lengths, and color, please contact us for a FREE estimate.

### DETERMINING YOUR PRICE LEVEL:

The footage of different specie on the same order

may be accumulated to determine price level. Ask us about special pricing on bunk (1000+) quantities of any one specie. **Prices and availability subject to change without notice.**

### OUR 100% SATISFACTION GUARANTEE:

Your lumber purchases are fully guaranteed to be properly graded, measured and machined. LLJ does not guarantee products against loss or dam-

age in transit due to circumstances beyond our control. To receive full credit for a returned package, the package must be in the same condition in which it was received.

**MEASUREMENT:** Kiln dried lumber from printed prices is measured after kiln drying and sold on net tally. No additions are made to cover the shrinkage

which takes place in kiln drying. All thicknesses less than 1" are measured in surface feet.

**SPECIAL SIZES:** Printed lumber prices are for random width and length lumber unless stated otherwise. Special widths, lengths, color, or grain patterns can be supplied to minimize your waste factor. Contact us for pricing on your special requirements.

## ECO-FRIENDLY...100% CHEMICAL FREE.

Picking the right deck materials are key to how long a new deck is going to last and how much investment in maintenance will be needed. Now you can match the refinement and elegance, the low maintenance and durability of exotic lumber with U.S. grown timber. ecoVantage thermally modifies real wood with heat and steam to create enhanced natural wood that is low maintenance and weather resistant.

PerfikDek materials are shaped and cut from EcoVantage's EcoPrem Wood -- Yellow Pine thermally modified with heat and steam to create natural lumber that is low maintenance with high resistance to weather and insect attack.

We also offer StaTru thermally modified wood, perfect for deck structural systems. Since the product is chemical free, it will not facilitate corrosion in metal deck fastening systems, and comes with a 30-year warranty for in-ground contact applications.

### Notice on Lumber Pricing

EFFECTIVE APRIL 21, 2011

Current hardwood demand is well below early to mid 2000 peaks but is now better than it was in 2009/2010. This is due mostly to very large export growth of almost every specie of hardwood lumber. While domestic markets for hardwoods are still slow compared to the peaks of the mid 2000's, there have been some modest improvements compared to 2010. With this in mind, lumber prices are expected to rise. It is our goal to communicate accurate, timely information to our customers.

Prices and availability of products listed in this publication are subject to change without notice.

For the most up-to-date information, please visit our website, [www.theworkbench.com](http://www.theworkbench.com), or call us toll free at 800-292-5937.
